7	Doing something in the past	Hobby activities	Writing
8	Revision	Review test	

Note: Assessments are given every week.

* **Attendance** - It is important to attend all classes to successfully complete the course on time and to improve your Korean. Make sure that you're responsible for all your absence.

* **Assessment and course progress** – Our assessment allows us to properly understand your knowledge, skill and attitude towards learning. After each assessment you will get written or spoken comments on your work by your teacher, which will help you understand how to improve.

* **Moving up to the next level** – You need to show continuous improvement in order to move up to Pre-Intermediate level B. You also need to attend classes regularly and have a good attitude to learning. Your progress will be monitored through your assessment scores. In order to move to Pre-Intermediate level B your average score should be above 75%.

Your score will be based on the completion of at least five weekly tests, which includes a minimum of one grammar test (these tests take place in Weeks 4 and 8).
